

"our impact"
"our responsibility"
"our future"

ENVIRONMENTAL POLICY

INTERLEC

The Management of Interlec (WA) Pty Ltd is committed to protecting and enhancing the quality of the Environment, by conducting all aspects of its business in a manner which;

- complies with applicable environmental standards and legislation in our present and future operations and where possible exceed the minimum standards of compliance.
- identify opportunities for improvement and set challenging standards that are consistent with the values and expectations of workers and the broader community.
- minimise the impact of our activities on the environment by ensuring our installation process and products are safe for our clients, the public and the environment.

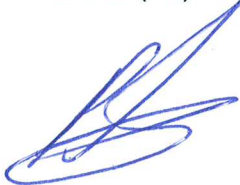

To reach this commitment Interlec expects all Interlec Management and Workers to:

- strive to develop and provide products and services that have no undue environmental impact, are safe to use and can be recycled, reused, or disposed of safely.
- educate, train and motivate all workers, including subcontractors, to carry out their task in an environmentally responsible manner.
- assess the potential environmental effects of our activities by monitoring our performance through internal and external auditing on a regular basis.
- promote awareness of protection to sensitive areas and heritage sites by encouraging a responsible attitude throughout the Company.
- rehabilitate the environment that is affected by our activities.

It is to this end that the Management of Interlec seek the co-operation of all workers and subcontractors to achieve the aim of this Policy.

Dated 21st January 2020 by the Authority of the Managing Director

INTERLEC (WA) PTY LTD

Mr Paul Martens
Managing Director
